Robyn,

At the same time that Liz and Pat are presenting to the Implementation Team on the 29<sup>th</sup>, Bruce and Nidhi will be meeting with DOE EPSA, and I'll be in Michigan meeting with the PSC and DEQ.

All three of us will be down in DC on the 30<sup>th</sup> and October 1<sup>st</sup> meeting with various clients in the DC area. We'd be happy to talk with your folks if there's a chance on the 30<sup>th</sup> (currently flexible) or the morning of the 1<sup>st</sup>.

Just some food for thought:

(a) talk w/ key CAMD (Jeb?) re modeling and non-modeling approaches and/or briefly outline what we're up to in Michigan,

(b) talk w/ Chris S. about the shape of trading markets,

(c) talk about state outreach (did you or Julia still want us involved in that process?)

(d) talk about using AVERT for the national avoided emissions rate, and potential development ideas for AVERT.

In any case, we're looking forward to chatting in person if you have an opportunity.

Cheers,

-Jeremy
